• Portfolio occupancy was 99.1% at December 31, 2017 as compared to 98.8% at September 30, 2017, and 99.0% at December 31, 2016

#### 2017 Highlights:

- Increased annual net earnings per common share 5.1%
- Increased annual FFO per common share 5.3%
- Increased annual Core FFO per common share 7.2%
- Increased annual AFFO per common share 5.4%
- Dividend yield of 4.3% at December 31, 2017

- Annual dividend per common share increased 4.3% to \$1.86 marking the 28th consecutive year of annual dividend increases - making the company one of only three equity REITs and one of only 88 public companies with 28 or more consecutive annual dividend increases
- · Maintained high occupancy levels at 99.1% with a weighted average remaining lease term of 11.5 years
- Invested \$754.9 million in 276 properties with an aggregate gross leasable area of approximately 2,243,000 square feet at an initial cash yield of 6.9%
- Sold 48 properties for \$96.8 million, producing \$36.3 million of gains on sale, net of noncontrolling interests, at a cap rate of 6.0%
- Raised \$647.9 million of new long-term capital at attractive pricing
  - Raised \$253.2 million in net proceeds from the issuance of 6,051,062 common shares
  - Raised \$394.7 million in net proceeds from the issuance of 3.50% senior unsecured notes due 2027
- Paid off \$250 million principal amount of 6.875% senior unsecured notes due 2017
- Expanded unsecured bank credit facility to \$900 million while extending the term to January 2022 and reducing the interest rate to LIBOR + 87.5 basis points
- \$779.5 million availability on bank credit facility at December 31, 2017
- 99.7% of properties are unencumbered with secured mortgage debt
- Total average annual shareholder return of over 11% for the past 5-, 10-, 15-, 20-, and 25-years exceeds industry averages

#### Selected Highlights for the quarter ended December 31, 2017:

- Investments:
  - \$257.4 million in property investments, including the acquisition of 94 properties with an aggregate gross leasable area of approximately 955,000 square feet at an initial cash yield of 6.9%
- Dispositions:
  - Sold 17 properties with net proceeds of \$41.0 million, producing \$15.8 million of gains on sales at a cap rate of 5.7%
- Long-term capital:
  - Raised \$81.0 million in net proceeds from the issuance of 1,946,089 common shares

Jay Whitehurst, Chief Executive Officer, commented: "2017 was another very strong year for National Retail Properties in every aspect of our business. Our healthy portfolio, our broad acquisition pipeline, and our strong balance sheet position us well to continue delivering consistent per share growth over a multi-year term and maintain our guidance of 4-5% growth in per share results for 2018."

National Retail Properties invests primarily in high-quality retail properties subject generally to long-term, net leases. As of December 31, 2017, the company owned 2,764 properties in 48 states with a gross leasable area of approximately 29.1 million square feet and with a weighted average remaining lease term of 11.5 years. For more information on the company, visit www.nnnreit.com.

Management will hold a conference call on February 13, 2018, at 10:30 a.m. ET to review these results. The call can be accessed on the National Retail Properties web site live at <a href="http://www.nnnreit.com">http://www.nnnreit.com</a>. For those unable to listen to the live broadcast, a replay will be available on the company's web site. In addition, a summary of any earnings guidance given on the call will be posted to the company's web site.

Statements in this press release that are not strictly historical are "forward-looking" statements. These statements generally are characterized by the use of terms such as "believe," "expect," "intend," "may," "estimated," or other similar words or expressions. Forward-looking statements involve known and unknown risks, which may cause the company's actual future results to differ materially from expected results. These risks include, among others, general economic conditions, local real estate conditions, changes in interest rates, increases in operating costs, the preferences and financial condition of the company's tenants, the availability of capital and risks related to the company's status as a REIT. Additional information concerning these and other factors that could cause actual results to differ materially from these forward-looking statements is contained from time to time in the company's Securities and Exchange Commission (the "Commission")

filings, including, but not limited to, the company's Annual Report on Form 10-K. Copies of each filing may be obtained from the company or the Commission. Such forward-looking statements should be regarded solely as reflections of the company's current operating plans and estimates. Actual operating results may differ materially from what is expressed or forecast in this press release. National Retail Properties, Inc. undertakes no obligation to publicly release the results of any revisions to these forward-looking statements that may be made to reflect events or circumstances after the date these statements were made.

The reported results are preliminary and not final and there can be no assurance that the results will not vary from the final information filed on Form 10-K with the Commission for the quarter and year ended December 31, 2017. In the opinion of management, all adjustments considered necessary for a fair presentation of these reported results have been made.

Funds From Operations, commonly referred to as FFO, is a relative non-GAAP financial measure of operating performance of an equity REIT in order to recognize that income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO is defined by the National Association of Real Estate Investment Trusts ("NAREIT") and is used by the company as follows: net earnings (computed in accordance with GAAP) plus depreciation and amortization of assets unique to the real estate industry, excluding gains (or including losses), any applicable taxes and noncontrolling interests on the disposition of certain assets, the company's share of these items from the company's unconsolidated partnerships and any impairment charges on a depreciable real estate asset.

FFO is generally considered by industry analysts to be the most appropriate measure of performance of real estate companies. FFO does not necessarily represent cash provided by operating activities in accordance with GAAP and should not be considered an alternative to net earnings as an indication of the company's performance or to cash flow as a measure of liquidity or ability to make distributions.

Management considers FFO an appropriate measure of performance of an equity REIT because it primarily excludes the assumption that the value of the real estate assets diminishes predictably over time, and because industry analysts have accepted it as a performance measure. The company's computation of FFO may differ from the methodology for calculating FFO used by other equity REITs, and therefore, may not be comparable to such other REITs. A reconciliation of net earnings (computed in accordance with GAAP) to FFO, as defined by NAREIT, is included in the financial information accompanying this release.

Core Funds From Operations ("Core FFO") is a non-GAAP measure of operating performance that adjusts FFO to eliminate the impact of certain GAAP income and expense amounts that the company believes are infrequent and unusual in nature and/or not related to its core real estate operations. Exclusion of these items from similar FFO-type metrics is common within the REIT industry, and management believes that presentation of Core FFO provides investors with a potential metric to assist in their evaluation of the company's operating performance across multiple periods and in comparison to the operating performance of its peers because it removes the effect of unusual items that are not expected to impact the company's operating performance on an ongoing basis. Core FFO is used by management in evaluating the performance of the company's core business operations and is a factor in determining management compensation. Items included in calculating FFO that may be excluded in calculating Core FFO may include items like transaction related gains, income or expense, impairments on land or commercial mortgage residual interests, preferred stock redemption costs or other non-core amounts as they occur. The company's computation of Core FFO may differ from the methodology for calculating Core FFO used by other equity REITs, and therefore, may not be comparable to such other REITs. A reconciliation of net earnings (computed in accordance with GAAP) to Core FFO is included in the financial information accompanying this release.

Adjusted Funds From Operations ("AFFO") is a non-GAAP financial measure of operating performance used by many companies in the REIT industry. AFFO adjusts FFO for certain non-cash items that reduce or increase net income in accordance with GAAP. AFFO should not be considered an alternative to net earnings, as an indication of the company's performance or to cash flow as a measure of liquidity or ability to make distributions. Management considers AFFO a useful supplemental measure of the company's performance. The company's computation of AFFO may differ from the methodology for calculating AFFO used by other equity REITs, and therefore, may not be comparable to such other REITs. A reconciliation of net earnings (computed in accordance with GAAP) to AFFO is included in the financial information accompanying this release.
