Consistent and Simple Strategy

- ◆ Focus on single-tenant net lease retail properties
- ◆ Operate with multi-year strategy focus on per share results
- ◆ Sustain high occupancy and maximize value of existing real estate assets
- ◆ Maintain fully diversified portfolio
- ◆ Grow through internal portfolio growth and well underwritten acquisitions
- ◆ Generate incremental earnings growth through disciplined acquisition approach with higher yields and less risk than other acquisition approaches

Retail Net Lease Strategy Generates a Reliable Income Stream with Low Volatility

 - ◆ Lower earnings volatility from higher occupancy (20-year low of 96.4%)
 - ◆ Retail properties more likely to renew lease at end of initial term
- ◆ 10-20-year initial lease terms; 10.0-year weighted average remaining lease term

Thorough Underwriting Strategy

Buy smart with extensive underwriting process up front

- ◆ Look for strong retail real estate locations
- ◆ For existing tenant AND future alternative tenant

NNN's Disciplined Acquisition Approach

- ◆ Less money invested allows us to offer lower rent to retailer
- ◆ Lower rent = lower occupancy costs for retailer
 - ◆ As a result, retailer more likely to afford rent at that location
- ◆ Lower rent = easier to re-lease property without reduction in rent
- ◆ Contractual rent increases built into the lease
